Md Mehedi Pathan

Helping businesses redesign & develop their websites from just $300 — trusted by 50+ clients worldwide. DM to get started.
Bogra District, Rajshahi, Bangladesh

Summary

I'm Mehedi Pathan, Co-founder of Moonju Tech Solution — helping businesses redesign outdated or underperforming websites into modern, clean, and high-converting platforms.

With 7+ years of experience, I specialize in:
→ Website Redesign & Rebuild
→ Custom Web Applications (Next.js, React.js)
→ WordPress & E-commerce Solutions
→ Speed Optimization, Mobile-Friendly UI, and SEO Basics

If your current site feels slow, outdated, or isn't converting — I can help transform it into something that truly works for your brand.

DM me to get a quick free review and see how we can upgrade your website starting from just $300. Let's make it work better for you.

My Internship Journey: Navigating Challenges

During my 7-month internship as a Front-End React Developer at Boomdevs, I faced both opportunities and unexpected challenges. It was a period of significant learning and personal growth.

When Luck Took a Turn
However, life has its own plans, and sometimes, challenges emerge unexpectedly. Despite my dedication and hard work, my journey at Boomdevs took an unforeseen turn due to circumstances beyond my control. It was a period of disappointment and reflection.

Finding Strength in Adversity

In the face of adversity, I chose not to let disappointment define my journey. Instead, I turned it into a source of motivation. I reminded myself that setbacks are stepping stones to future success.

Embracing New Beginnings

Today, as I move forward in my career, I carry the lessons learned during my internship at Boomdevs with me. I am fueled by the desire to overcome challenges, pursue my passion for React development, and create a brighter future.

I am deeply appreciative of the support and opportunities I received during my internship. I look forward to the next chapter in my career with enthusiasm and a commitment to continuous improvement.

Thank you Boomdevs for being a part of my journey.

JOJA Group
Web Developer
May 2020 - August 2021 (1 year 4 months)

TRANSSION HOLDINGS
Application Engineer
December 2018 - September 2019 (10 months)

Bogra, Rajshahi, Bangladesh

Application Engineer at Transsion Holdings

I had the privilege of serving as an Application Engineer at Transsion Holdings, where I played a pivotal role in designing and developing cutting-edge applications. My responsibilities included collaborating with cross-functional teams, solving complex technical challenges, and delivering innovative solutions to meet business objectives.

During my tenure, I gained valuable insights into the dynamic world of application development and honed my skills in creating user-centric experiences. My time at Transsion Holdings was marked by a commitment to excellence and a passion for pushing the boundaries of technology.

I am grateful for the opportunities and experiences that have enriched my professional journey, and I look forward to applying my expertise in future endeavors.
